

Project Cost Estimate

5.1 Itemize project elements to be purchased and or constructed with this grant. If awarded, the grant will reimburse 50% of the grant amount. Upon grant approval and bid tab results, these items will be listed on your PDS (Project description sheet). Do not include items outside of maximum grant amount.

5.2 List all materials and labor

5.3 Estimate design cost - professional fees are eligible for reimbursement, sponsor administration of the grant is not. Per AIA fee calculator, 10% of project amount is eligible for professional fees, of which 50% is reimbursable (example: \$500,000 grant awarded, up to \$50,000 in professional fees are eligible, of which \$25,000 may be reimbursed. The sponsor will be responsible for the other half).

5.4 Identify number and types of facilities to be constructed, purchased or installed. Abide by Louisiana bid laws. (Example: (5) 12 x 12 picnic pavilions at \$45,00 each)
